Permit Fees are to be paid when the original application for the permit is filed.

Security will be provided by the applicant, as determined by the Road Commission, to ensure proper construction and restoration in the right-of-way. Security for Right-of-Way restoration will be provided in the form of cash or check, and forms provided by the Road Commission are the *only* acceptable alternatives for utility permits.

The applicant will be liable for any and all inspection fees, unless otherwise noted on the permit application. An invoice with an itemized statement will be generated for deficient accounts on a monthly basis. Any unexpended fund balance will be refunded following the completion of work. Non-payment of an invoice will result in suspension of the review process or a Stop Work Order during construction.

In the event the applicant does not properly repair damages, the applicant will be liable to pay a \$200 inspection fee plus the cost of any repairs.
